## Overview of the Plot

Shutter Island is set in 1954 and follows U.S. Marshal Teddy Daniels and his new partner Chuck Aule as they arrive at Ashecliffe Hospital, a mental institution on Shutter Island, to investigate the disappearance of a patient, Rachel Solando. As Teddy delves deeper into the investigation, he uncovers unsettling secrets about the facility and begins to experience disturbing visions and memories that challenge his perception of reality. The plot gradually reveals layers of deception, psychological manipulation, and hidden truths. Teddy's personal trauma—his experiences during World War II, especially the liberation of Dachau, and the loss of his wife—intertwines with the investigation, creating a complex narrative that keeps readers questioning what is real and what is a hallucination.

## Themes and Literary Elements

# **Psychological Trauma and Madness**

One of the central themes of *Shutter Island* is the fragility of the human mind under extreme stress and trauma. Lehane explores how past horrors can distort perception and lead to madness. His detailed descriptions of the island's stormy weather, dilapidated buildings, and claustrophobic interiors heighten the sense of dread and isolation. The narrative is tense and tightly paced, with moments of introspection interwoven with action and suspense.
